EVERYBODY'S TALKING

about RESTORE—and no wonder! After **Brian Urlacher** and **Deion Sanders** stunned the world with their new heads of hair, more athletes followed their lead. Magazines, TV stations, online outlets and newspapers from coast to coast have showcased the breakthrough RESTORE procedure and our growing list of happy celebrity clients.

"It's brought my swagger back."

Deion Sanders

*No stitches.
No linear scar.*

Brian Urlacher

RESTORE F.U.E. method

Strip surgery method performed at most other clinics

THE RESTORE F.U.E. METHOD

A BREAKTHROUGH IN TECHNOLOGY

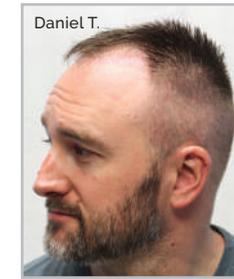

F.U.E. stands for Follicular Unit Excision, a fancy way of saying that each follicle of donor hair is removed one at a time. Most other doctors use the "strip surgery" method, where donor hair is harvested by surgically removing a strip of skin from the back of the head.

The RESTORE F.U.E. Method is totally different—and dramatically better.

There's no scalpel, no stitches, and no linear scar. Patients enjoy a comfortable procedure followed by minimal post procedure down time. The result is soft, natural and virtually undetectable. Patients experience a lifetime without any noticeable scar line.

NO-SHAVE METHOD

RESTORE is one of the only clinics offering a **No-Shave F.U.E Method**. Our highly coveted No-Shave Hair Restoration procedure is the most discrete and undetectable way to get your hair back.

Urlacher tackles balding.

Hall of Famer Brian Urlacher captured the hearts of football fans during his 13 seasons as the face of the Chicago Bears. He was known for hard hits - and for being bald. Shortly after retirement he learned about RESTORE, and finally saw an opportunity to get his hair back. After Urlacher's hair grew back in, he stunned the world when he showed off his results on live TV.

Media coverage of his new hairline became national news and trended to number 1 on Twitter and Facebook. Urlacher's openness about his procedure has changed the game for tens of thousands of men struggling with hair loss, and has propelled RESTORE to become the most talked about and demanded hair restoration practice in the country.

“I wondered what it would be like to have hair again. I just never knew it was an option for me.”

Brian Urlacher
54

Before

After

How has your life changed since retiring from football?

"I like to play golf and travel – and I definitely work out every day. That's what especially appealed to me about the RESTORE F.U.E. Method. I could get back to the gym right away."

What has RESTORE done to your morning routine?

"Well, I used to be able to get in and out of the shower in less than two minutes. Now, I need to shampoo and use conditioner, so I'm probably up to seven minutes these days."

Why are you talking about RESTORE and not keeping it under wraps?

"I've always tried to be honest in the media and I want everyone to know that you can talk about hair restoration. I want to open the doors to let men know that they can do this. It's OK to have a cosmetic procedure done. I had no idea how many people, even close friends of mine, worry about their hair. I've probably referred twenty friends so far to RESTORE."

What's been the reaction from the public?

"Not long ago, I was at a drive-through restaurant and a girl working there said to me, 'You look just like Brian Urlacher – but much younger and with hair!' I get that all the time now."

Prime Time is back!

Known as one of the greatest athletes of all time, Hall of Famer Deion Sanders is the only professional athlete in history to play in a Super Bowl and World Series. In 2023, Sanders emerged in the spotlight again when he became "Coach Prime" - leading the charge for the Colorado Buffaloes.

Having struggled with loss for years, Deion finally decided to take action. He could have gone anywhere in the world to fix this problem, but he chose RESTORE based on the recommendation of many of his friends. He now brags openly about his incredible results and how this was the best decision he could have made.

“If you look good, you feel good. If you feel good, you play good. If you play good, they pay good.”

A Chicago icon.

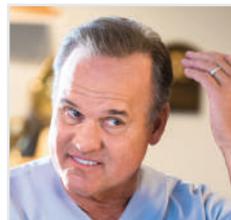

When did you first realize you were losing your hair?

"I was about 45 years old. I saw a photo of myself looking up at the scoreboard during a game from the '84 season. I realized I had so much hair back then – and really wished I had appreciated it then."

What has been the reaction to your new look?

"It's been great. I love hearing fans say, "You look like you could still be playing – put on a uniform!""

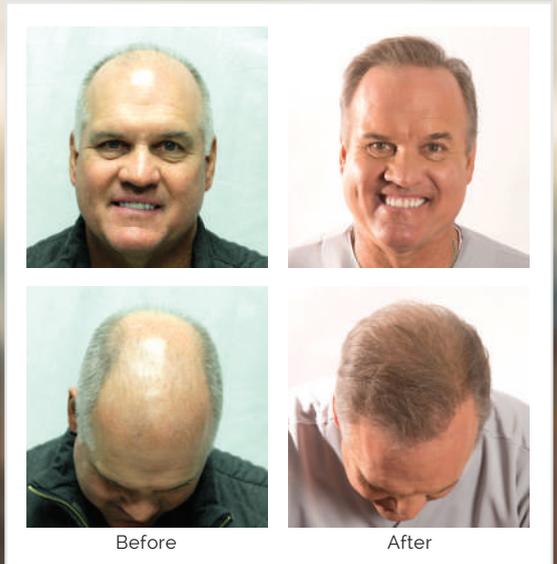

How do you feel now that you have hair?

"I have a renewed sense of youthfulness and energy, especially around my grandkids. I always feel young at heart when I'm with them, and now I have a look that matches that feeling!"

"I feel younger. I feel more like one of the guys when I'm interacting with the players – and that's amazing! "

MAKING THE RIGHT CALL.

Professional baseball umpires eject hair loss.

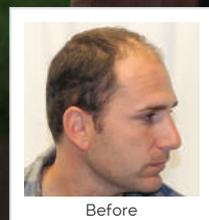

Being a professional baseball umpire is stressful. With all eyes focused on them, they're expected to make quick, critical decisions which have permanent, lasting impacts.

Pat Hoberg recalls "I wanted fans to focus on my calls, not on my hair." After learning about RESTORE from a number of pro ball players, Pat decided to take control of his own hair loss. When Pat showed off his results to his fellow Umpires, they were amazed. "They all wanted to know how they could get their hair back". And one after the next, they did. Dan Bellino and Todd Tichenor soon followed. "Now it seems like just about all my fellow Umpires are going in to get it done!"

"I want the focus to be on my calls, not my hair."

Confidence spells success.

Let's face it, how we look really does say something about who we are. And a healthy, youthful appearance wins every time - at work, at home, with women, even with other men. In fact, studies have shown that men with hair have more success in their careers, especially in sales and management environments.

“ It was as normal and natural as going in for a haircut. I went back to work the very next day. ”

MATT FORTE

Professional Football Player (retired)
RESTORE client
6,853 follicular units

Back in the game.

Matt Forte spent ten years of his life on the football field as a running back. While he managed to avoid getting tackled, he was not as successful with avoiding hair loss. After years of thinning hair and finally shaving his head, Matt was ready to get rid of the stack of hats he had collected, so he went to RESTORE to explore his options for hair restoration.

Seeing results from Brian Urlacher, he knew RESTORE was a trusted name in hair restoration.

“ I love being back at the barbershop! ”

Matt Forte

How was your RESTORE experience?

“It was seamless. They explained how the procedure was done, how long [the procedure] would take, and how long it would take to see results. They just treated me with the utmost care.”

What would you tell other guys who deal with hair loss?

“Male pattern baldness happens to a lot of us and to have an organization like RESTORE to restore your hair and you can get that back, it's a dream come true.”

What do you think the reaction from the public will be when they see your new hair?

“Impressed! Because I'm impressed. I never would have thought that it would've turned out this well.”

What have you done with the hats you used to wear?

“They collect dust now. I haven't burned them yet, but I have to have a hat burning ceremony. I think every guy should have that!”

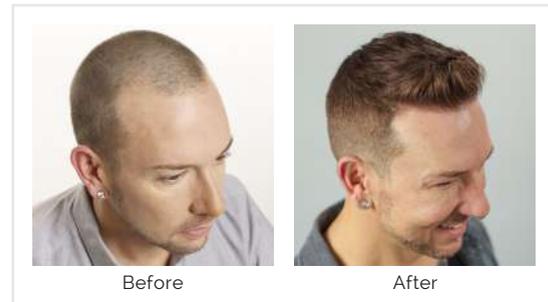

TOMMY B.

Hair Stylist
RESTORE client
1,500 follicular units

Style is everything for this hair stylist.

Being a well known hair stylist, Tommy realized the importance of having great hair. "My thinning made me feel old and very self conscious. I stand in front of a mirror everyday cutting my clients hair and I didn't like what I was seeing with my own!". All of that changed when Tommy was introduced to RESTORE. What sold him on the procedure was learning that he could cut and style his hair any way without it being detectable that he had a procedure.

"I was able to go out dancing, out to restaurants and to the pool – and no one had any idea I'd just had the procedure done."

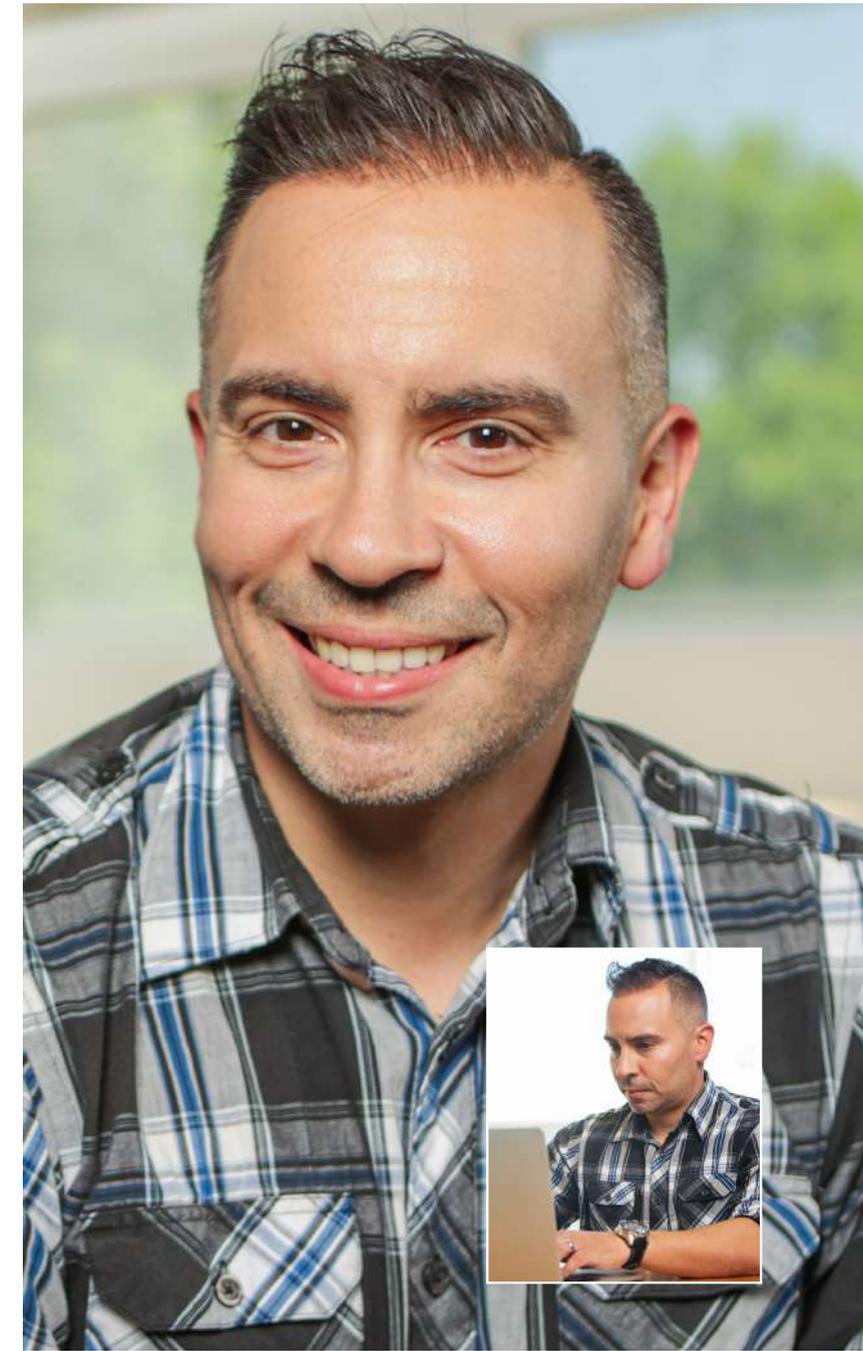

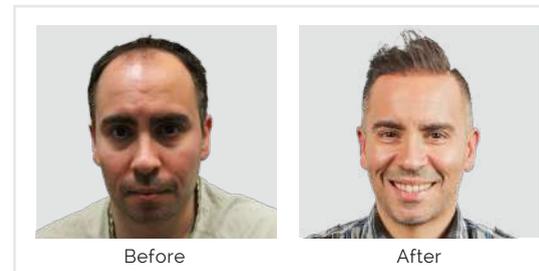

JOSEPH B.

Management
RESTORE client
2,000 follicular units

Invest in yourself.

Within Joseph's role in management, he wanted to ensure people were focusing on his leadership, and not on his hair." My thinning hair made me feel as if everybody was noticing it and made me feel older actually." Then, RESTORE came into the picture. Now that Joseph has his hair back, he feels younger, he's able to actually style his hair and it gave him a confidence boost. "I wanted something that allowed me to get back to work as soon as possible and not have everyone notice that I had something done."

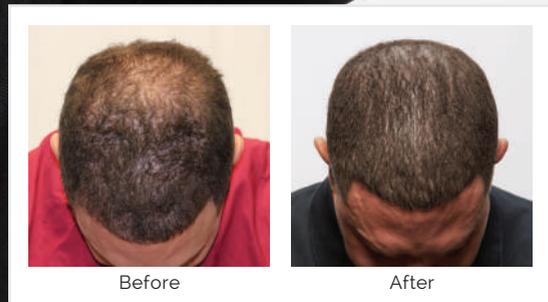

"It's an investment in your confidence and future. I had my hair and confidence restored."
